Holiday Gift Ideas? Wacom® Has Some Great Input!

Vancouver, WA – Nov. 20, 2006 – The ultimate companion for that new digital camera and a wonderful way to satisfy a digital sweet tooth, Wacom's Graphire® 4 pen tablets make a great gift for people of all ages. Graphire4 is a complete input solution that includes a patented cordless, battery-free pen and a patented cordless, battery-free mouse. It also comes with some valuable software.

Joy to the Digital World

The natural control of the Graphire pen and the powerful capabilities of the included software make it easy to have fun with digital photos. Creative kids can turn photos into paintings. Memory keepers can create personal artwork to give that extra-special touch to family scrapbooks. Digital dads and moms can communicate more personally by using the pen to jot electronic notes, annotate documents and sketch quick diagrams. Graphire4 brings a world of joy to digital life. And, when used alternately with the included mouse, the Graphire4 pen reduces repetitive motion and increases computing comfort. Graphire4 pen tablets are available in a choice of three colors (Silver, White and Metallic Blue) and two sizes (4x5 and 6x8), priced at \$99 and \$199. The Graphire Bluetooth® wireless 6x8 pen tablet is also available for \$249.

Three Wise Applications Bearing Creative Fun

The Graphire4 comes with some powerful creative software that is specifically designed to take advantage of the natural control of a Wacom pen. *Adobe® Photoshop® Elements 3* combines power and simplicity for creatively editing, quickly organizing and easily sharing photos. *Corel® Painter™ Essentials 2* is a complete home art studio that is perfect for exploring digital art and creating stunning personal paintings from photographs. *Nik Color Efex Pro™ GE 2* photographic filters use the True Light™ color processing system to automatically provide optimal photographic enhancements.

Experience a Present with a Future

Members of the broadcast and print media can request a Graphire4 review sample by contacting Douglas Little via e-mail (douglas.little@wacom.com) or telephone at 360-896-9833 x174.
