

Getting started with Wacom sign pro PDF for Android

How to open and edit a document

Open a PDF document by selecting it in the sign pro PDF file browser. you'll see this toolbar displayed at the top of the document:

Depending on your Android device you'll see a Menu icon alongside the toolbar:  If the icon is not displayed, you can use the Menu key on your device to save or close the document.

This icon:  opens the editing toolbar as follows:

How to sign

To sign the document, select the signing icon: 

After this, draw a rectangle in the document where you want your signature to appear. A popup window displays your signature as you sign and allows you to accept it, sign again or cancel.

To pre-define the signature area, use the rectangle icon: 

and draw a rectangle where you want a signature to appear. Then save the document. When the document is opened again in sign pro PDF, the user can sign it by tapping the rectangle and entering his / her signature in the area that you created.

How to draw freehand annotations

To draw a freehand annotation in the document, select the drawing icon: 

It opens the drawing toolbar:

To change the pen colour or size while drawing, select the colour icon: 

To erase a part of your drawing select the eraser icon: 

To resume drawing, select the pen icon: 

Once the drawing is complete accept it by tapping the check icon: 

How to add sticky notes

To insert a sticky note, select the note icon:

Then tap in the document where the note should appear. A popup dialog allows you to enter text for the note.

How to save

To save a document, select the Menu icon:

or press the Menu key on your Android device. It displays the available options:

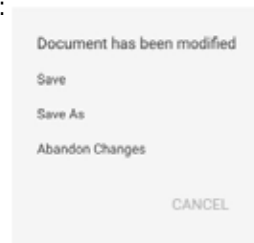

Choose how you want to share or save the document.

To abandon changes to a document, select the Back icon:

or press the Back key on your Android device. It displays the available options:

You can then choose the option: Abandon Changes.

Please note: When all of the credits have been used you can purchase further credits online. Without any credit, new signatures will be displayed with a label indicating 'No signature credits left'. Credits are applied equally to handwritten signatures and eSeal signatures.
